June 2023 - December 2023

Education

International University of Business Agriculture and Technology

Computer Science and Engineering

September 2023 - September 2027

Front End - Skills

- HTML
- CSS
- Tailwind
- JavaScript
- React

Back End - Skills

- Express JS
- MongoDB
- JWT
- Firebase

Languages

- English - Professional
- Bangla - Native

Projects

1. Meal Master

I have named it **MealMaster** and this one is my most great project. This project basically can manage the hostel meal system for the students. A package system for properly managing the meal system
